

# ***Green Environment Program***

*Green Environment Day is celebrated to promote the protection and preservation of our planet. It encourages people to plant trees and keep their surroundings clean and green. The day reminds us to reduce pollution and use natural resources wisely. Schools and communities organize activities to spread awareness about environmental conservation. Green Environment Day inspires everyone to work together for a healthier and more sustainable Earth.*

## ***Green Environment Program conducted in the Wisdom School***

*A Cleanliness Program was conducted in our school to promote hygiene, environmental awareness, and a sense of responsibility among students. The event began with a special assembly where teachers explained the importance of maintaining cleanliness in our surroundings. Students from all classes participated enthusiastically, cleaning classrooms, corridors, the playground, and the garden area. Dustbins were placed at various points, and posters were made to spread messages about keeping the environment clean. The program encouraged students to adopt good habits such as proper waste disposal, handwashing, and maintaining personal hygiene. Overall, the Cleanliness Program was a great success and helped develop a cleaner and healthier atmosphere in the school.*
