

National Mathematics Day

National Mathematics Day is celebrated on December 22 in India to honour the birth anniversary of the legendary mathematician Srinivasa Ramanujan. It recognizes the importance of mathematics in daily life, education, and scientific progress. The day encourages students and teachers to explore the beauty and logic of mathematics through various activities, workshops, and competitions.

Mathematics Day Event in the Wisdom School

On National Mathematics Day, the children organized a Maths Fair in the school. They displayed creative projects, solved puzzles, and conducted fun math activities. The event made learning mathematics enjoyable and interesting for everyone.
